

To all prospective cosmetic surgery patients:

Dr. Nelson has an office based procedure room that has been Nationally accredited by Accreditation Association for Ambulatory Health Care (AAAHC). This is where Dr. Nelson performs his surgical procedures. This accreditation is not required by the State of Tennessee, but Dr. Nelson wants his patients to be assured they are getting the highest quality of care in a safe procedure room. This accreditation has very strict national policy rules and regulations that must be complied with before they approve any facility, and must be maintained during the duration of the accreditation. Dr. Nelson is proud to have this status. Dr. Nelson also wants patients to know that these procedures are performed with intravenous conscious sedation that is administered by a certified nurse anesthetist.

If you have any questions, please feel free to contact Dr. Nelson.

Sincerely,

James C. Nelson Jr., M.D.
