Dear Patient,

It is my duty as your physician to educate and inform you on breast implants, their uses, potential side effects and possible complications.

It is the opinion of this office that you need and deserve this education and it is also the opinion of this office that any physician performing this operation should give you the same consideration. In this packet you will find information on my accredited procedure room, consent and information forms for your education, and post-op follow up instructions.

If you have any questions regarding breast implants, feel free to call my office.

Sincerely,

James C. Nelson Jr., M.D.
